

Bob,

I cannot thank you enough for the time, and hour of the day, that you graciously spent on putting together your presentation. The format, facts, videos and especially the delivery of your message was hard hitting and one that I know will be internalized and adopted by not only the management team, but through them and our values, throughout the entire work force of our company.

I can honestly say that you have always been there for us, both on a business as well as a personal level and the professionalism that you exhibit, as well as the end results achieved, is nothing short of amazing and exemplifies the consummate professional that I desire to have representing Advanced Power Technologies.

I believe your job, as it relates to us in the future, will become easier and easier in part due to your passion and presentation made and I look forward to having you as part of our core professional service providers for many years to come.

I know I speak on behalf of all my email recipients when I say a heartfelt appreciation for all you have done and know will continue to do.

Sincerely,

Devin Grandis, CLMC, CLEP
